

Village Appliance Update

Monday May 18, 2020

Our **SHOWROOM IS OPEN TO THE PUBLIC**. We are taking the necessary steps to keep everyone safe, practicing social distancing and following all safety recommendations from the U.S. Center for Disease. We encourage you to call ahead, speak to one of our salesman and schedule an appointment when possible.

We ask all customers coming into the store wear a mask or facing covering to ensure the safety of everyone. We will be providing everyone with a new pair of gloves as they enter the store. All of our staff will be wearing masks and gloves when appropriate.

We would also like to provide you with an update on the actions we are taking. We are committed to keeping our showroom, delivery truck and warehouse clean and sanitary. In addition to our daily cleanings, we are constantly disinfecting surfaces, countertops, appliances and door handles throughout the day. Our delivery team are wearing the appropriate safety masks, gloves and are sanitizing the truck after each delivery.

Should you want to conduct business from the safety of your own home, we are still available by :

PHONE-914-937-2221
